VENICEM

DESCRIPTION

Elements with heterogeneous volumes evolve into compact compositions. The solid central body of the Ring Coffee Table, which is intersected by two concentric and protruding planes, enhances the tangibility of the material of which it is forged; the craftsmanship of the blended burnished metal gives life to nuances and irregularities that add unpredictability to the geometric accuracy of its shapes and materials. The Ring Coffee Table is available in two sizes.

PRODUCTS DETAILS

FUNCTION	COFFEE TABLE
LOCATION	INTERIOR
