Tubular suspended light fitting for mood lighting

Light design

- Choice of 3 different reflectors in anodised aluminium (silver, coppery, golden)

Housing

- Ø100 mm diffuser in borosilicate glass
- End caps 1/2 ring press-formed in 304L stainless steel
- Gaskets moulded in EPDM
- Cable entry with nickel-coated brass cable gland for cable Ø5 - 14 mm

Gear tray

- Stainless steel gear tray with 2 porcelain E14 sockets
- Including 2 clear E14 LED filament lamps (3W, 2700K)
- Internal wiring with silicone isolated wires braided with glass fibre

Reflectors

- Range of reflectors in anodised aluminium sheeting: silver, coppery, golden

Installation

- Connection to a 3x2.5 mm² terminal block
- Fixing with 2 reinforced spring-loaded stainless steel straps with variable centre distance and allowing 360° orientation
- Provided with 2 suspension kits including each a ceiling attachment system, 3 m steel cord (Ø1.2 mm) and a self-locking adjustable strap fixing system

Easy maintenance

- Maintenance by releasing the 2 closing screws, removing the end caps and sliding the gear tray

Electrical class	Class I
Supply voltage	220/240V 50Hz
Sealing	IP66, IP68 and IP69K
Shock resistance	IK07
Operating temperature	-20°C +30°C

Accessory:
Cable plate: code CP00481
